Electricity

Terms and Conditions of Usage

1. Electricity must be requested in writing by stallholders at the time of their application for a pitch by completing the Electrical Usage Form, which must be approved by the Safety Manager.
2. Black Sheep Events CIC reserves the right to inspect all electrical equipment by a trained electrician from time to time. Electrical wiring or equipment found without current pass stickers will not be allowed to be used and electricity suspended from that trader until their equipment and wiring has been approved.
3. Heat producing equipment shall be so placed within the trading area as to offer maximum safety to the public.
4. No electricity or lights will be supplied without the Electrical Usage Form being completed and approved by the Safety Manager.
5. The maximum loading per stall is A) 150w low usage and b) 3000w high usage for cooking and heating.
6. All lighting must be low energy either led or compact fluorescent.
7. Stallholders are not permitted to connect any electrical equipment other than that requested on their Electrical Usage Form.
8. All portable electrical appliances owned by a trader must be maintained in good condition and annually inspected by a competent person and have a (PAT) sticker. Copies of inspection certificates must be retained and where requested, provided to the Safety Manager.
9. If electricity is utilised on a stall, the trader responsible for that stall shall ensure that there are no exposed cables and that the use of electricity would not cause a hazard to members of the public or others.
10. No heaters, induction hobs or halogen appliances will be allowed at the market.
